*Crime in Alabama 2011* represents a summary of the nature and extent of the crimes reported by local criminal justice agencies to the Alabama Criminal Justice Information Center's (ACJIC) Uniform Crime Reporting (UCR) program. State law mandates that all crimes are reported from state, county and local law enforcement agencies, and the statistics presented in this report are compiled from these reports.

Since the UCR program is designed to provide a snapshot of criminal activity in a specific geographical area rather than as a measure of a law enforcement agency's response to crime, it should not be used to evaluate or compare one agency with another. UCR is only one aspect of the activities and responsibilities of the law enforcement community, and the statistics presented herein are not intended to serve as the sole indicator of either the workload or effectiveness of the reporting agencies.

Crime in Alabama is an annual publication of the ACJIC Statistical Analysis Center (SAC). Requests for additional information may be directed to this office at the following address:

## *A Message from the Director*

*Crime in Alabama 2011* is the thirty-sixth annual report published by the Alabama Criminal Justice Information Center's (ACJIC) Statistical Analysis Center (SAC). This report concentrates on the more serious criminal acts, technically called Part I crimes, reported to the state Uniform Crime Reporting (UCR) program by the state's law enforcement agencies for calendar year 2011. Also included is an overview of the less serious offenses (or Part II crimes) as well as statistics regarding arrests and recovered property. We hope this report will provide a useful snapshot of crimes occurring in our state during 2011.

Due to technology improvements and new reporting standards, this report is the most thorough *Crime in Alabama* publication to date. Most of Alabama's reporting law enforcement agencies used ACJIC's new electronic reporting system, which allowed us to compile and analyze the crime data better than ever. While the percentage of crime appears to have increased, this may simply be a factor of better reporting by the agencies. ACJIC will continue to improve our data quality, and hopefully our efforts will better support our state policymakers and law enforcement leaders in their efforts to improve public safety.

We hope our efforts to continue to provide quality services to the criminal justice community are helpful to you. ACJIC looks forward to our continued publication of *Crime in Alabama* and to future enhancements designed to improve public safety through the provision of accurate and timely criminal justice information.

Sincerely,

A handwritten signature in black ink that reads "Maury Mitchell". The signature is written in a cursive style and is placed over a light gray, textured rectangular background.

## *Dedication*

---

This report is dedicated to Alabama's law enforcement officers who protect and defend the citizens of this state. In particular, we would like to honor the memory of Alabama's peace officers who lost their lives in the line of duty in 2011.

## *Preface*

---

The 2011 *Crime in Alabama* report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity in Alabama.

Since the Uniform Crime Report (UCR) offense and arrest data are the basis of this report, it must be noted that other factors affecting crime are not measured by UCR, such as age, sex, and race of the population, economic conditions of the area, transient population, culture, education, climate, attitudes of the victims toward crime and police, and crime reporting practices of the citizens.

Due to technology improvements and new reporting standards, this report is the most thorough *Crime in Alabama* publication to date. Most of Alabama's reporting law enforcement agencies used ACJIC's new electronic reporting system, which allowed ACJIC to analyze and digest the crime data better than ever. While the percentage of 2011 crime appears to have increased, this may simply be a factor of the better reporting as a result of new rules promulgated by the statewide ACJIC Commission requiring electronic submission of UCR data.

It is difficult to draw conclusions or make valid comparisons between various jurisdictions by using only the crime and arrest data in this book. The data in this book are used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting. Geographic areas covered in this report include the State of Alabama, county and city strata.

The Alabama Criminal Justice Information Center (ACJIC) would like to extend our appreciation to law enforcement agencies – sheriff's departments, municipal police departments, and campus police – for their cooperation in the UCR program.

## *Introduction*

---

In October of 1975, Act 872 passed both houses of the Alabama Legislature creating and establishing the Alabama Criminal Justice Information Center (ACJIC) which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (*Act 872, Section 9, 1975*)

With the passage of this bill, mandatory reporting was required of law enforcement agencies in Alabama. Prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting Program (UCR) on a voluntary basis. Since mandatory submission, there has been a 185% increase in UCR reporting.

Alabama's UCR program functions in accordance with the FBI's standards of operation which specify a uniform data collection device and quality control procedures which provide viable crime statistics for accurate indication of crime and crime trends.

ACJIC implemented an incident based reporting system as an alternative to UCR summary reporting in 1977. This Incident Based Reporting (IBR) System also provides a self-contained internal record keeping system for the agency. IBR is a voluntary system with 99% of Alabama's agencies participating. This reporting program is more detailed providing greater potential for services, analyses, and resource studies by both the individual agency's crime analysis units and ACJIC.

In 1986, ACJIC organized a 32-person UCR Committee to review the IBR report forms. This committee was made up of law enforcement personnel from small, medium and large police departments and sheriff's departments, computerized agencies, the FBI, and the Bureau of Justice Statistics (BJS). The committee reviewed and analyzed the ten year old forms and decided that enhancements were needed. The IBR report forms were redesigned with input from Alabama's local agencies. In 2006, these forms were re-designed to conform to the FBI's Nation Incident Based Reporting System (NIBRS). The new forms became the official state forms in 2010.

On January 1, 2010, the Alabama Criminal Justice Information Center Commission enacted a rule requiring electronic submission of Alabama Uniform Crime Reporting (UCR) data. ACJIC provides Alabama law enforcement agencies with electronic submission requirements, and/or the Alabama's UCR Local Template for Reporting and Analysis (ULTRA) also is provided to requesting agencies at no local cost to allow law enforcement agencies to submit reports to the state UCR repository via this secure, web-based ACJIC application. ACJIC also provides training and assistance to reporting agencies to help answer any questions which may arise regarding reporting, crime classifications, and clearance data.

## *Crime and Arrest Data*

---

Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These analyses can then aid local police departments in laying out patrol districts, assigning patrol units, and designating community education programs.

Data used in this report are provided by the Crime Statistics and Information (CSI) Division of the Alabama Criminal Justice Information Center (ACJIC). ACJIC's data center houses the official state repository for reported arrests and offenses, and the CSI Division has the responsibility of collecting and disseminating crime data. In 2011, approximately 350 agencies reported known offenses to Alabama's UCR; 99% of Alabama's law enforcement agencies submitted Incident Reports and 1% returned UCR Summaries.

Through a mandate of Congress, Arson is counted as a Part I Offense. So as not to distort crime trends in Total and Property Crime indices, Arson totals will not be included in these sections but will be included in a separate section following property crimes.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crime and Property Crimes.

Violent Crimes include Homicide, Rape, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person(s) with a high risk or injury or death to the victim(s). Property Crimes are comprised of Burglary, Larceny, Motor Vehicle Theft, and Arson\*. Property or Nonviolent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared, either by arrest or by exceptional means, when enough evidence is found to charge a suspect and take him/her into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. The clearance rate is achieved by taking the number of clearances over the number of crimes reported:

$$\text{CLEARANCE RATE} = \frac{\text{CLEARANCES}}{\text{REPORTED CRIMES}}$$

This report is a composite picture of crime and law enforcement activity in Alabama for 2011. It provides a breakdown for the State and localities participating in the UCR program. The report concentrates on the Index Crime of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percent changes.

\*A separate section on arson will be included in this report.

## Definition of Terms

---

Term	Definition
Adult	the UCR system defines adults as 18 years of age and over.
Arrest	a measure of law enforcement activity by which an individual is detained in legal custody.
Arson	willful or malicious burning with or without intent to defraud, includes attempts.
Assault	the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury, including attempts. Attempted homicide is listed as an aggravated assault.
Burglary	unlawful entry of a structure to commit a felony or theft.
Central City	a city with at least 50,000 residents.
City Strata	a breakdown of cities according to population.
Clearance	a measure of law enforcement activity which shows that a crime has been solved for a crime reporting purposes either by the arrest of a suspect or by exceptional means. Exceptional means provides a solution to a crime when there is enough evidence to place a formal charge against an offender, but some element beyond law enforcement control precludes an actual arrest. It is possible for one arrest to clear more than one offense.
Clearance Rate	the clearance rate is achieved by taking the number of clearances over the number of crimes reported.
Crime Rate	a measure of criminal activity which shows the number of crimes reported per 100,000 residents.
Criminal Activity	measured by reported crimes, trends, rates.
Forcible Entry	offenses in which force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony.
Hierarchy of Offenses	whenever more than one offense is committed simultaneously, the most severe offense is reported to UCR. The exception is arson which is always reported along with the most serious offense.
Homicide	the willful killing of another as based on police investigation.
Incident Based Reporting System (IBR)	a voluntary crime reporting system developed by ACJIC as an alternative to the UCR Summary Program.
Juveniles	the UCR system defines juveniles as males and females 17 years of age and younger.
Larceny	unlawful taking or stealing of property or articles without the use of force, violence or fraud, i.e., pocket picking, purse snatching, shoplifting, theft from vending machines, etc.
Law Enforcement Activity	police activity as measured by clearances and arrests.

Term	Definition
Minimal Injury	personal injury involving abrasions, minor lacerations requiring no more than usual first-aid treatment.
Motor Vehicles	automobiles, trucks, buses, motorcycles, etc.
Motor Vehicle Theft	The unlawful taking or stealing of a motor vehicle, including attempts.
Non-Residence	any structure used for purposes other than a residence.
Part I Index Crimes	a category of UCR offenses deemed more serious and/or most frequent. The Part I Index Crimes include homicide, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson.
Part II Offenses	<p>a category of UCR offenses which include:</p> <p><b>Assaults (Simple):</b> non-aggravated assaults.</p> <p><b>Forgery and Counterfeiting</b> - making, altering, uttering, or possessing with intent to defraud, anything false which is made to appear true, includes attempts.</p> <p><b>Fraud:</b> fraudulent conversion and obtaining money or property by false pretenses.</p> <p><b>Embezzlement:</b> misappropriation or misapplication of money or property entrusted to one's care, custody, or control.</p> <p><b>Stolen Property:</b> buying, receiving, and possessing stolen property, includes attempts.</p> <p><b>Vandalism:</b> willful or malicious destruction, injury, disfigurement or defacement of property without the consent of the owner or person having custody or control.</p> <p><b>Weapons:</b> all violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers, includes attempts.</p> <p><b>Prostitution and Commercialized Vice:</b> sex offenses of a commercial nature.</p> <p><b>Sex Offenses (Other):</b> statutory rape, offenses against chastity, common decency, morals, etc.</p> <p><b>Narcotic Drug Laws:</b> offenses relating to narcotics, i.e., possession, sale, use, growing and manufacturing of narcotic drugs.</p> <p><b>Gambling:</b> promoting, permitting, or engaging in illegal gambling.</p> <p><b>Offenses Against the Family and Children:</b> non-support, neglect, desertion, or abuse of family and children.</p> <p><b>Driving Under the Influence:</b> driving or operating any motor vehicle or common carrier while drunk or under the influence of liquor or narcotics.</p> <p><b>Liquor Laws:</b> violations of state or local liquor laws.</p> <p><b>Drunkness:</b> drunkenness or intoxication.</p> <p><b>Disorderly conduct:</b> breach of the peace.</p> <p><b>Vagrancy:</b> begging, loitering, etc.</p> <p><b>All other offenses:</b> all violations of state or local laws, except categories mentioned above, Part I Offenses, and traffic violations. Including, but not limited to bigamy, blackmail, bribery, contempt of court, discrimination, perjury, possession and/or sale of obscene material, quarantine violations, etc.</p>

Term	Definition
Property Crimes	(non-violent crimes) index crimes which lack the aspect of force and/or bodily harm to the victim(s). Included in this category are burglary, larceny, motor vehicle theft, and arson.
Recovery	finding stolen property. It should be noted that a recovered article does not clear a crime, although the owner is reunited with his property a crime was committed and a suspect must be taken into custody to clear the offense.
Reported Crimes	crimes reported to law enforcement officials. <i>Note: In this report, only those offenses which prove to be actual offenses are used. Those cases which have been deemed unfounded are excluded from the crime totals.</i>
Residence	any dwelling structure used for human habitation.
Robbery	stealing or taking anything from the care, custody, or control of a person, in his presence, by force or by threat of force, including attempts. Robbery is broken down into seven categories: <b>Highway:</b> robberies occurring on the streets, in alleys, outside of structures. <b>Commercial House:</b> hotels, motels, lodging houses, etc. <b>Gas or Service Stations:</b> sell gasoline and related products. <b>Convenience Stores:</b> neighborhood stores which specialize in the sale of consumable items. <b>Residence:</b> robberies occurring in a dwelling or on the premises. <b>Banking Establishments</b> - banks, savings & loan institutions, credit unions, etc. <b>Miscellaneous:</b> churches, temples, schools, union halls, government buildings, public transit systems, etc.
Serious Injury	personal injury is considered serious if there are broken bones, internal injuries, or if stitches are required.
Uniform Crime Reports	standardized reporting forms used by law enforcement officials to report criminal activity within their jurisdiction.
Uniform Crime Reporting System	official state repository of the Uniform Crime Reports and Incident Reporting forms and provides for the collection and dissemination of crime data.
Unlawful Entry	involves no force and is achieved by use of an unlocked door or window. The element of trespass is essential.
Urbanized Areas	incorporated or unincorporated places of 2,500 or more inhabitants.
Violent Crimes	index crimes which are offenses perpetrated against a person (or persons) with a high risk of injury or death to the victim. Crimes included in this category are homicide, rape, robbery, and assault.

## Total Index Crime

---

Total Index Crime is comprised of the Part I Offenses: Homicide, Rape, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson.\* Both offense and arrest data are collected for Part I crime.

### Alabama Crime - 2011 Summary Offense Data

## Arson

---

Arson is the willful or malicious burning with or without intent to defraud, includes attempts. It should be noted that the hierarchy rule does not apply to arson, meaning that any offense(s) committed in conjunction with arson results in the most serious offense, as well as the arson incident, being reported to UCR.

### Arson Summary 2011

- A total of **1,053** arsons were reported in 2011. This represents a **67%** increase from 2010. **57%** were structural arsons, **18%** were motor vehicles and other mobile property, and **25%** were other.
- There were **181** arsons cleared in 2011 for a **17%** clearance rate.

## *Appendix B*

### *2011 Crime by County Report*

Appendix B contains a 2011 Crime by County report. This report gives a breakdown of the seven index offenses by agency with composite county totals and rates.

ACJIC implemented incident based reporting system as an alternative to UCR summary reporting in 1977. On January 1, 2010, the Alabama Criminal Justice Information Center (ACJIC) Commission established a rule requiring electronic submissions of Uniform Crime Reporting (UCR) data. This rule also permits the ACJIC Director to grant an extension of time for submitting reports electronically if conditions exist beyond the control of the local law enforcement agency.

Alabama law enforcement agencies submitted requests to ACJIC requesting an extension of time and were permitted to submit part or all of their 2011 UCR data to ACJIC in a non-electronic (Summary) format due to electronic submission problems beyond their control are indicated by an asterisk (\*) in APPENDIX C. These agencies were provided with an extension until April 1, 2012 to become electronic submission compliant.

It is important to note that Summary data includes *only* totals of Part I Offenses, with no additional crime details provided due to lack of electronic submission. For more details related to these summary submissions, please contact these law enforcement agencies directly.

# 2011 Crime in Alabama

## Appendix C

Appendix C contains Part I offense data reported by individual city police departments, county sheriff's offices, and university police departments. City data is presented first and reflects percent increase or decrease over the prior year, followed by a section on clearance data. County sheriff's departments follow the section on City data, and also reflect percent increase or decrease over prior year and clearance data.

ACJIC implemented incident based reporting system as an alternative to UCR summary reporting in 1977. On January 1, 2010, the Alabama Criminal Justice Information Center (ACJIC) Commission established a rule requiring electronic submissions of Uniform Crime Reporting (UCR) data.

This rule also permits the ACJIC Director to grant an extension of time for submitting reports electronically if conditions exist beyond the control of the local law enforcement agency. Alabama law enforcement agencies submitted requests to ACJIC requesting an extension of time and were permitted to submit part or all of their 2011 UCR data to ACJIC in a non-electronic (Summary) format due to electronic submission problems beyond their control are indicated by an asterisk (\*) in APPENDIX C. These agencies provided with an extension until April 1, 2012 to become electronic submission compliant.

It is important to note that Summary data includes *only* totals of Part I Offenses, with no additional crime details provided due to lack of electronic submission. For more details related to these summary submissions, please contact these law enforcement agencies directly.

## APPENDIX C: CITY DATA

Alabama's cities will include incorporated and unincorporated areas grouped by population strata.

The tables on the following pages group cities according to population and list city names alphabetically. The percent change is the increase or decrease in reported crime over 2010. The numbers in parentheses indicate the number of months the agency reported to UCR if less than twelve months.

This report does not try to account for factors which contribute to the number and type of crime in a particular area, i.e., age, sex, race of population, transients, climate, employment, etc. Any effort to make crime comparisons between one area and another should be limited in scope and acknowledge the existence of these various factors impacting the incidence of crime.

PLEASE NOTE: ACJIC implemented incident based reporting system as an alternative to UCR summary reporting in 1977. On January 1, 2010, the Alabama Criminal Justice Information Center (ACJIC) Commission established a rule requiring electronic submissions of Uniform Crime Reporting (UCR) data.

This rule also permits the ACJIC Director to grant an extension of time for submitting reports electronically if conditions exist beyond the control of the local law enforcement agency. Alabama law enforcement agencies submitted requests to ACJIC requesting an extension of time and were permitted to submit part or all of their 2011 UCR data to ACJIC in a non-electronic (Summary) format due to electronic submission problems beyond their control are indicated by an asterisk (\*) in APPENDIX C. These agencies provided with an extension until April 1, 2012 to become electronic submission compliant.

It is important to note that Summary data includes *only* totals of Part I Offenses, with no additional crime details provided due to lack of electronic submission. For more details related to these summary submissions, please contact these law enforcement agencies directly.

## APPENDIX C: CITY DATA CLEARANCE RATES

\* \* \* \* \*

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

$$\frac{\text{REPORTED OFFENSES}}{\text{CLEARANCES}} = \text{CLEARANCE RATE}$$

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

PLEASE NOTE: ACJIC implemented incident based reporting system as an alternative to UCR summary reporting in 1977. On January 1, 2010, the Alabama Criminal Justice Information Center (ACJIC) Commission established a rule requiring electronic submissions of Uniform Crime Reporting (UCR) data.

This rule also permits the ACJIC Director to grant an extension of time for submitting reports electronically if conditions exist beyond the control of the local law enforcement agency. Alabama law enforcement agencies submitted requests to ACJIC requesting an extension of time and were permitted to submit part or all of their 2011 UCR data to ACJIC in a non-electronic (Summary) format due to electronic submission problems beyond their control are indicated by an asterisk (\*) in APPENDIX C. These agencies provided with an extension until April 1, 2012 to become electronic submission compliant.

It is important to note that Summary data includes *only* totals of Part I Offenses, with no additional crime details provided due to lack of electronic submission. For more details related to these summary submissions, please contact these law enforcement agencies directly.

## APPENDIX C: COUNTY DATA

Alabama is comprised of sixty-seven (67) counties, each averaging 756.8 square miles.

Incorporated and unincorporated areas not having a municipal police department are protected by the county sheriff and are included in his jurisdiction. Since UCR data deals with criminal activity in a particular geographic rather than with law enforcement agencies' activities, we do not intend, nor recommend, that this data be used to evaluate or compare one agency with another.

Due to diverse demographic characteristics, the county data will be presented in alphabetical order rather than by population strata. It will include reported crime and clearance data submitted by Alabama's 67 county sheriffs. County data does not include crime data submitted by municipal police departments contained within the county boundaries. The numbers in parentheses on the following pages denote the number of months the agency reported to UCR if it was less than twelve.

**PLEASE NOTE:** ACJIC implemented incident based reporting system as an alternative to UCR summary reporting in 1977. On January 1, 2010, the Alabama Criminal Justice Information Center (ACJIC) Commission established a rule requiring electronic submissions of Uniform Crime Reporting (UCR) data.

This rule also permits the ACJIC Director to grant an extension of time for submitting reports electronically if conditions exist beyond the control of the local law enforcement agency. Alabama law enforcement agencies submitted requests to ACJIC requesting an extension of time and were permitted to submit part or all of their 2011 UCR data to ACJIC in a non-electronic (Summary) format due to electronic submission problems beyond their control are indicated by an asterisk (\*) in APPENDIX C. These agencies provided with an extension until April 1, 2012 to become electronic submission compliant.

It is important to note that Summary data includes *only* totals of Part I Offenses, with no additional crime details provided due to lack of electronic submission. For more details related to these summary submissions, please contact these law enforcement agencies directly.

## APPENDIX C: COUNTY DATA CLEARANCE RATES

\* \* \* \* \*

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

$$\frac{\text{REPORTED OFFENSES}}{\text{CLEARANCES}} = \text{CLEARANCE RATE}$$

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.
